

Scene Banner System

Fantastic in Fabric

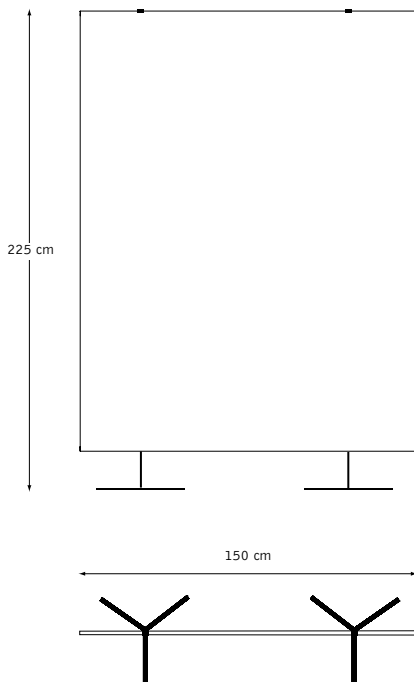

Scene is the perfect solution for any medium size event. It's relatively large final size and easy construction is ideal for those that want an effortless solution without compromising prestige and elegance. While not as large as its bigger brother Stage, Scene's fabric graphic is a real feature. With only two simple seams, one at the top and the other at the bottom, Scene's graphic can quickly be mounted between two horizontal profiles. Once the profiles are inserted into the seams, the graphic can then be creatively hung from the roof or wall, or will attach direct to a pole with holders for a fantastic banner stand or an impressive backdrop. The fabric graphics need little precision when mounting or printing and, even if the worst should happen and the fabric shrinks or stretches, scene will still work beautifully, looking as good as the day it was bought.

Small but striking, Big and bold!

Being both big and bold and small but striking, Scene is one of the most versatile products on the market. Scene can be ordered to your own custom width and will perform perfectly as a broad backdrop or a narrow banner stand. Being engineered from a lightweight but strong aircraft aluminum, Scene will look just as fantastic free standing as it will hung from the ceiling. When hung from the ceiling there is no limit to how tall Scene graphics can be, but when used in a confined space Scene is extremely effective for shop windows or smaller customer events. With its smooth Scandinavian design, Scene's tripod foot is a feature and when left free standing, the tripod foot offers polished good looks with enough subtlety to keep your brand at the centre of attention. All free standing systems are variable in height between 88cm and 225 cm, while the system itself has a maximum width of 210 cm. Scene comes complete in a handy carry case and is light enough to take anywhere at any time.

- Perfect for custom-size fabric graphics.
- Used for small to medium backdrops or bold banner stands
- Can be used any height when hung from the ceiling
- Variable in height, from 88 cm to 225 cm when free standing
